Note: A correction in calculation has resulted in a change in the official school awards for the National Tournament. The computer system designed to calculate the school awards mistakenly included the pilot events of Program Oral Interpretation and Informative Speaking and did not properly calculate current tiebreaker procedures. The correct list appears here.

It is important to note that all schools recognized on stage at the National Tournament are still being honored with a school award. After discussion, the Board of Directors determined that no school should lose recognition, but that the organization should, to the best of its ability, recognize school achievement at an appropriate level that reflects the adjustments that were made. The National Speech & Debate Association takes pride in honoring students, coaches, and schools at the highest level. We sincerely apologize for the error and will strive to ensure that a mistake of this nature does not occur again.
